Agenda

- AndeSight™ Overview
- Major Features in AndeSight™
- Demo of the Advanced Debugging with AndeSight™
- Demo of the Advanced Analyzing with AndeSight™
- Summary

AndeSight™ 5.0 Overview

AndeSight™

IDE and AndeSoft™ BSP inside

- GCC/LLVM toolchains and debuggers
- Optimized C library
- Optimized compute library: DSP, Vector
- Fast and near cycle-accurate simulators
- Rich RTOSes and Linux (LTP verified)
- Peripheral drivers for AndeShape™ platform
- Arduino support for Andes Corvette-F1 EVB
- Abundant demos for boosting your development
 - Startup code for AndeCore™ feature
 - Linux demos
 - Vector demos
 - In-line assembly
 - Vector Intrinsic
 - Benchmark programs
 - NN reference models

AndesClarity™ **Processor Pipeline Analyzer**

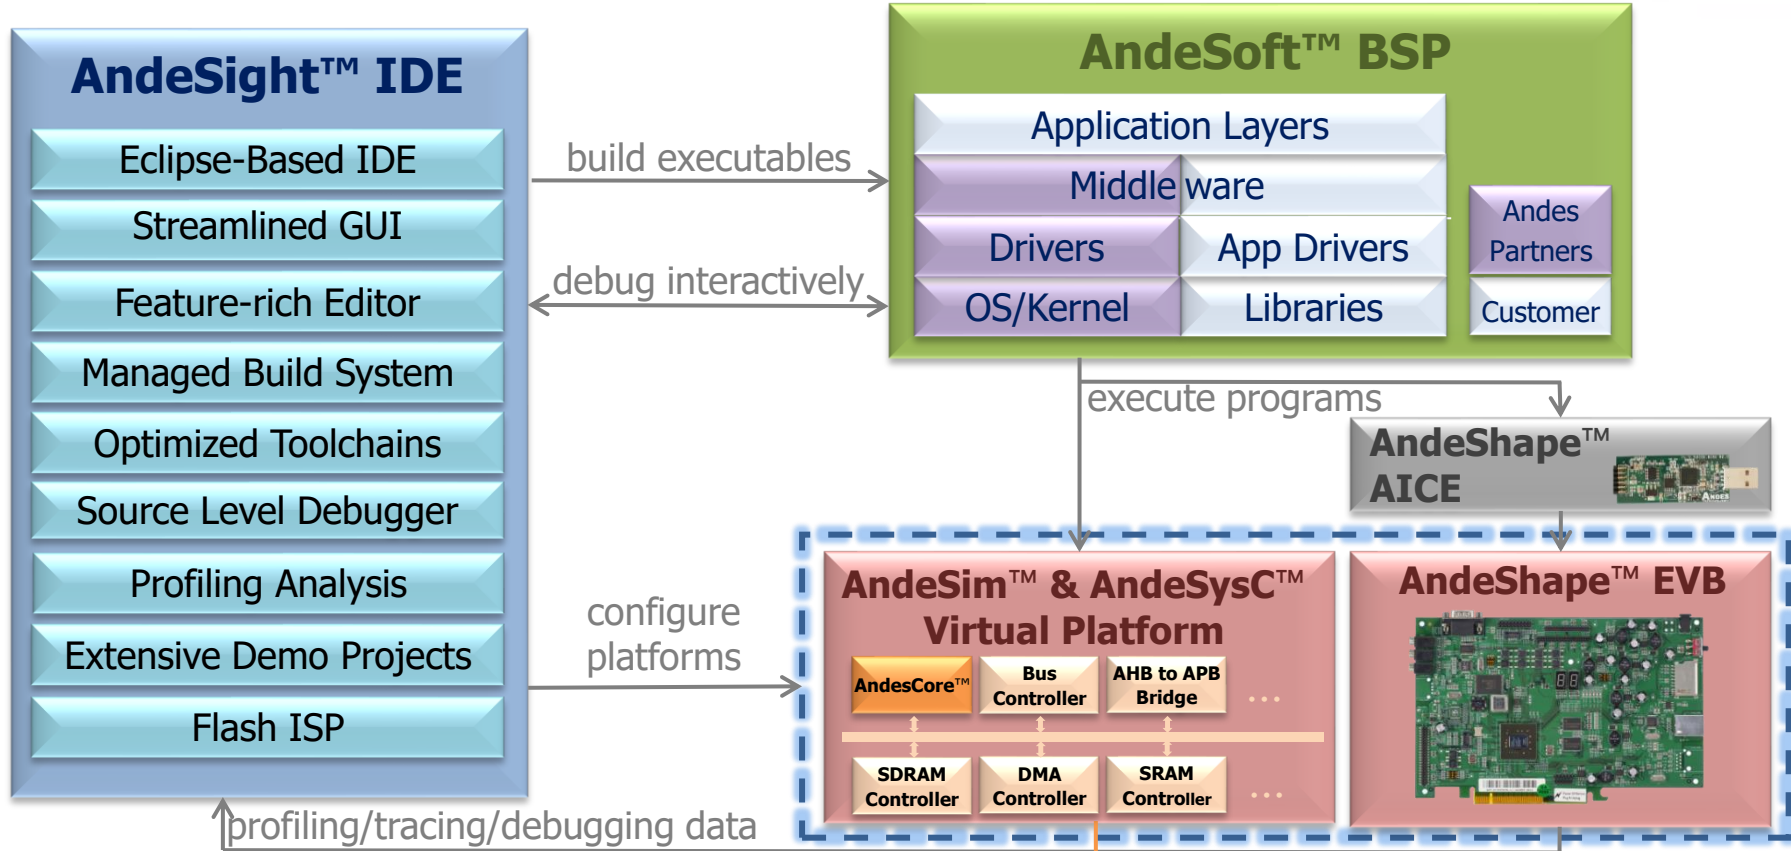

AndeSoft™ **NN Library for RVP/RVV**

Optimized libraries for RISC-V DSP/
SIMD and Vector extensions

AndeSoft™ **LLVM for RVV**

LLVM compiler infrastructure for RISC-V
Vector extensions

SoC SW Development Environment

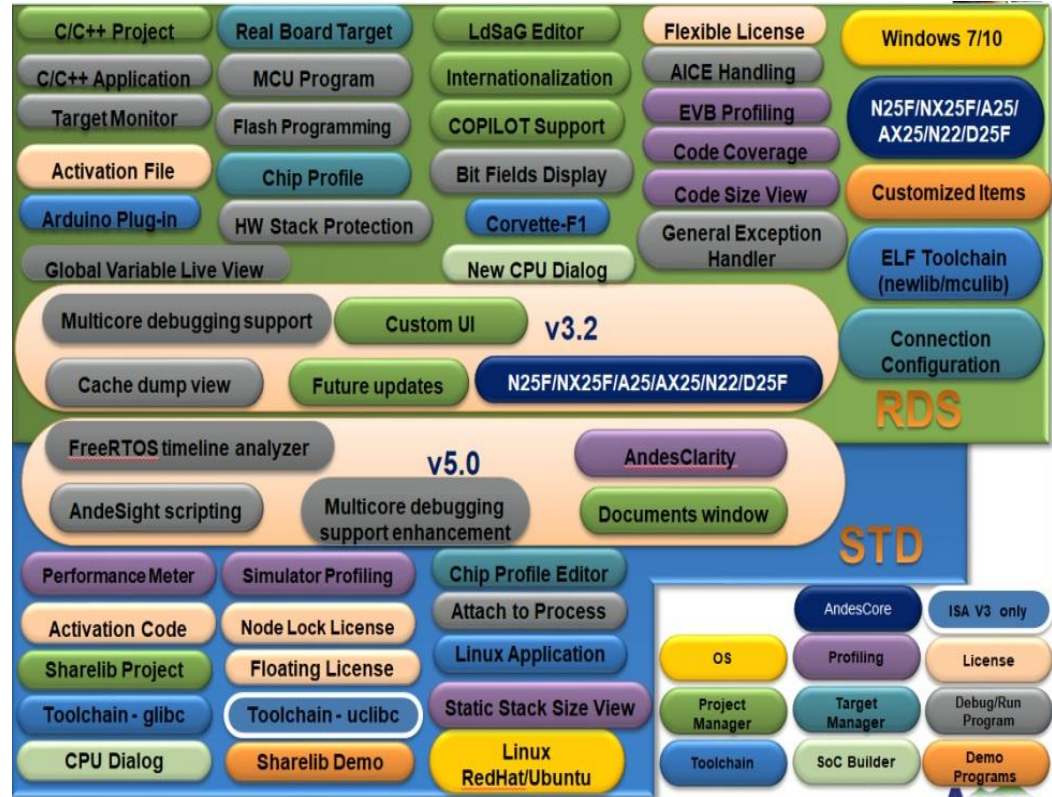

Agenda

- AndeSight™ Overview
- Major Features in AndeSight™
- Demo of the Advanced Debugging with AndeSight™
- Demo of the Advanced Analyzing with AndeSight™
- Summary

AndeSight™ Major New Features

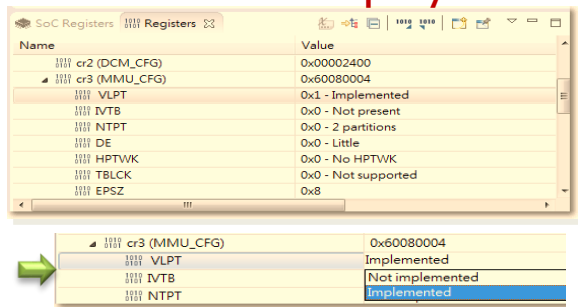

- Multicore Debugging Enhancement
- FreeRTOS Timeline Analyzer
- AndeSight™ Scripting
- Document Window
- AndesClarity™
- Vector Intrinsic Support

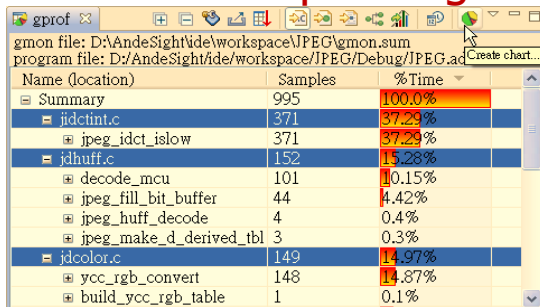

AndeSight™: Professional IDE

- Eclipse-based IDE, enriched from 16-year continuous development

RTOS awareness

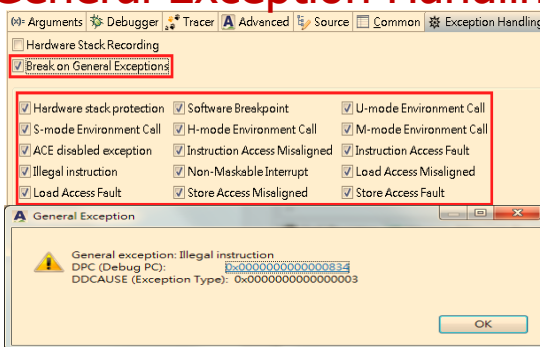

FreeRTOS Task List

task name	number	priority	start of stack	top of stack	status
TaskWav	0	2	0x84480	0x850720	Running
IDLE	2	0	0x851a20	0x855990	Ready
TaskEmp	1	2	0x850980	0x851870	Blocked
DMA BH	3	8	0x304f80	0x305370	Suspended

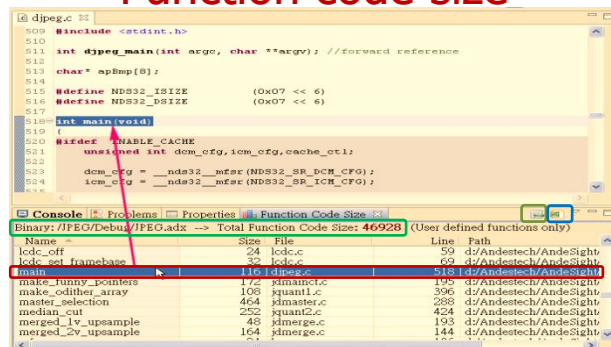

FreeRTOS Event List

queue name	handler address	max length	item size	messages waiting	waiting Tx	waiting Rx
queue	0x855e40	1	0	1	0	0
queue	0x855b00	1	0	1	0	0
queue	0x855b00	65535	0	127	0	0
queue	0x855b00	65535	0	0	0	1

General Exception Handling

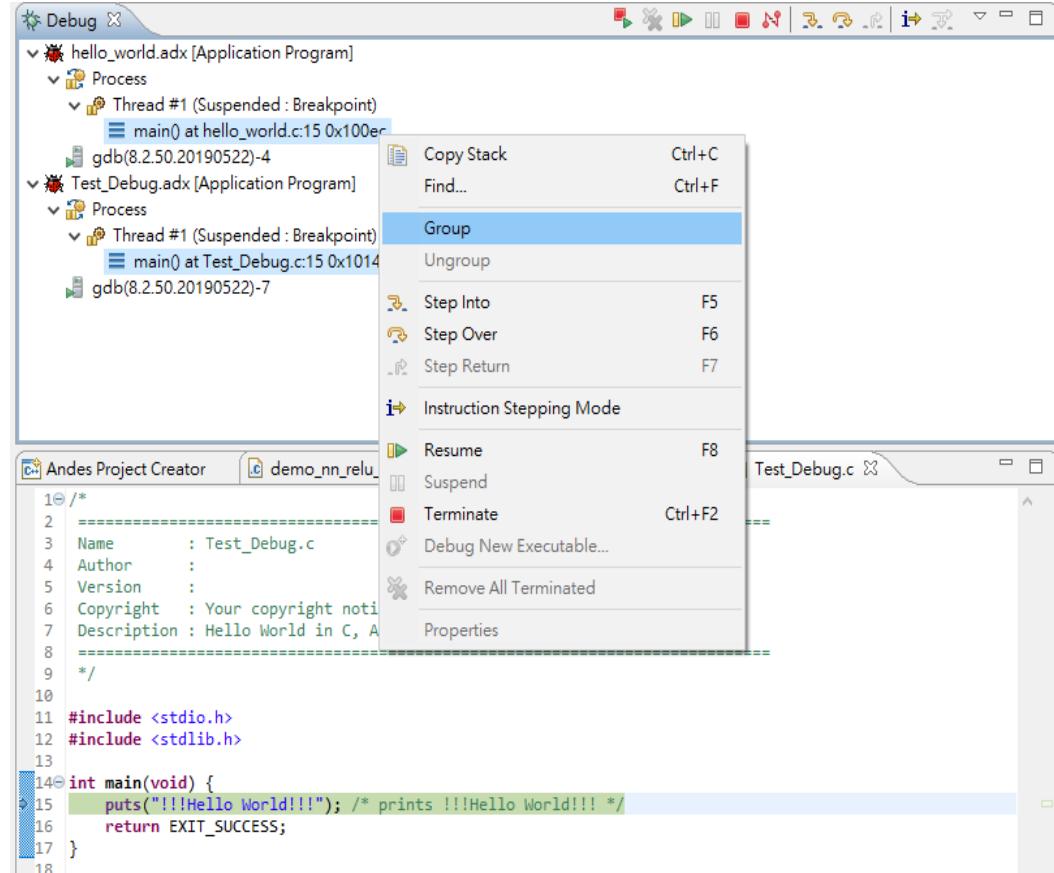

Function code size

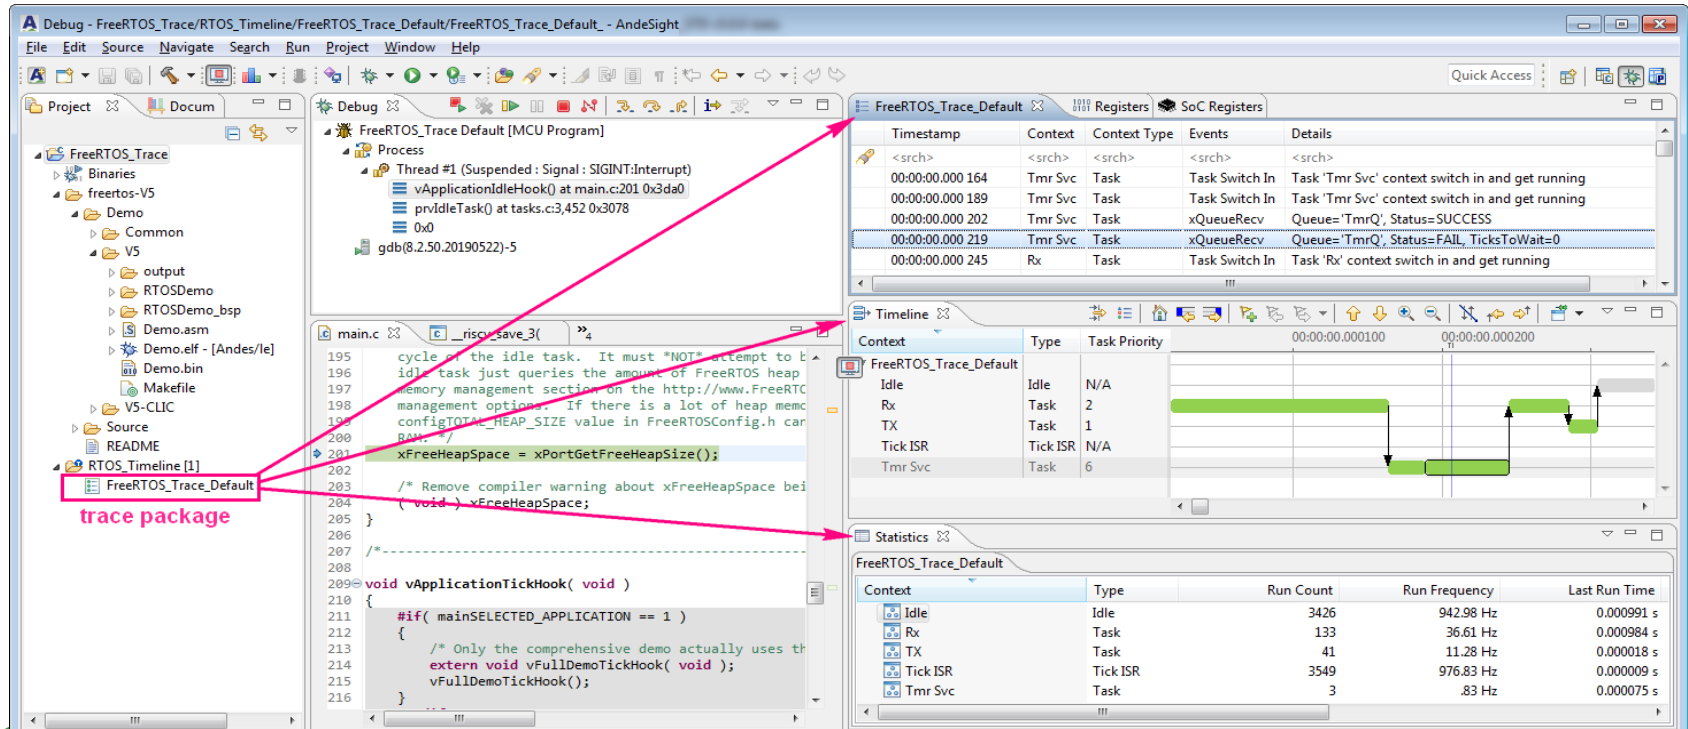

Multicore Debugging Enhancement

- Grouping Cores for Efficient Debugging
 - Debug commands can be sent to a specific set of cores at the same time
 - Configure debug settings for each core
 - Can run different projects on each core

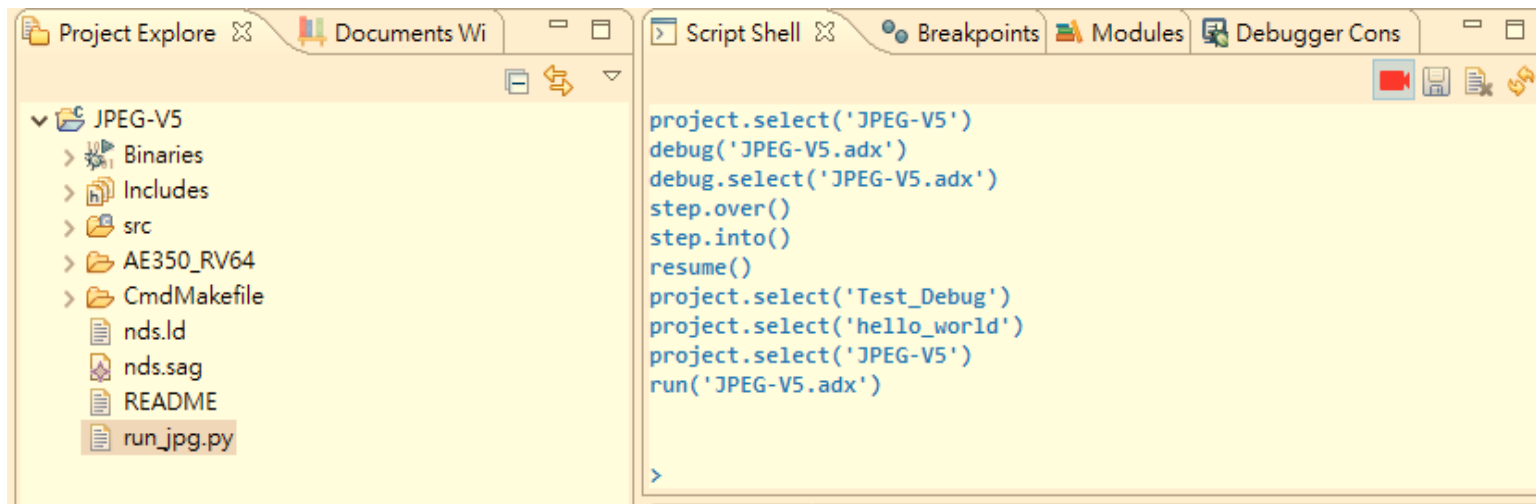

FreeRTOS Timeline Analyzer

- Visualize the insights into runtime behaviors
 - Execution of tasks, interrupts and events **within the specified time period**

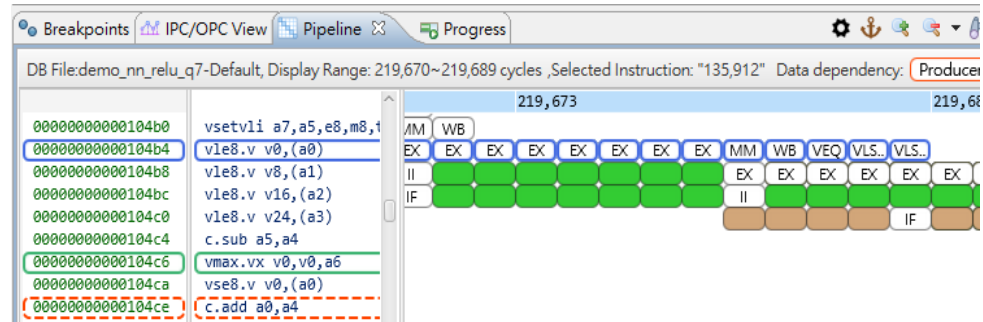

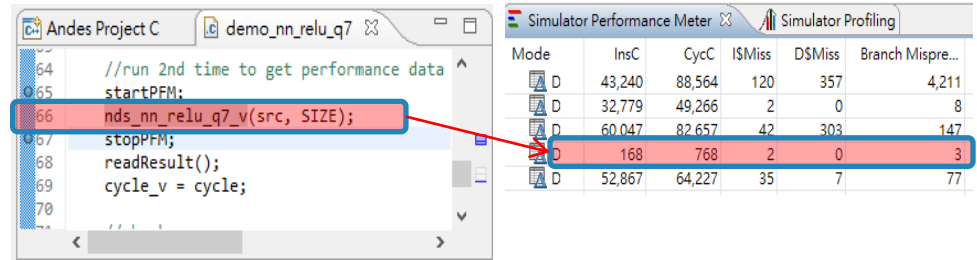

AndeSight™ Scripting

- Record and replay UI operations with Python script
 - Test automations
 - Issue reproductions

AndesClarity™

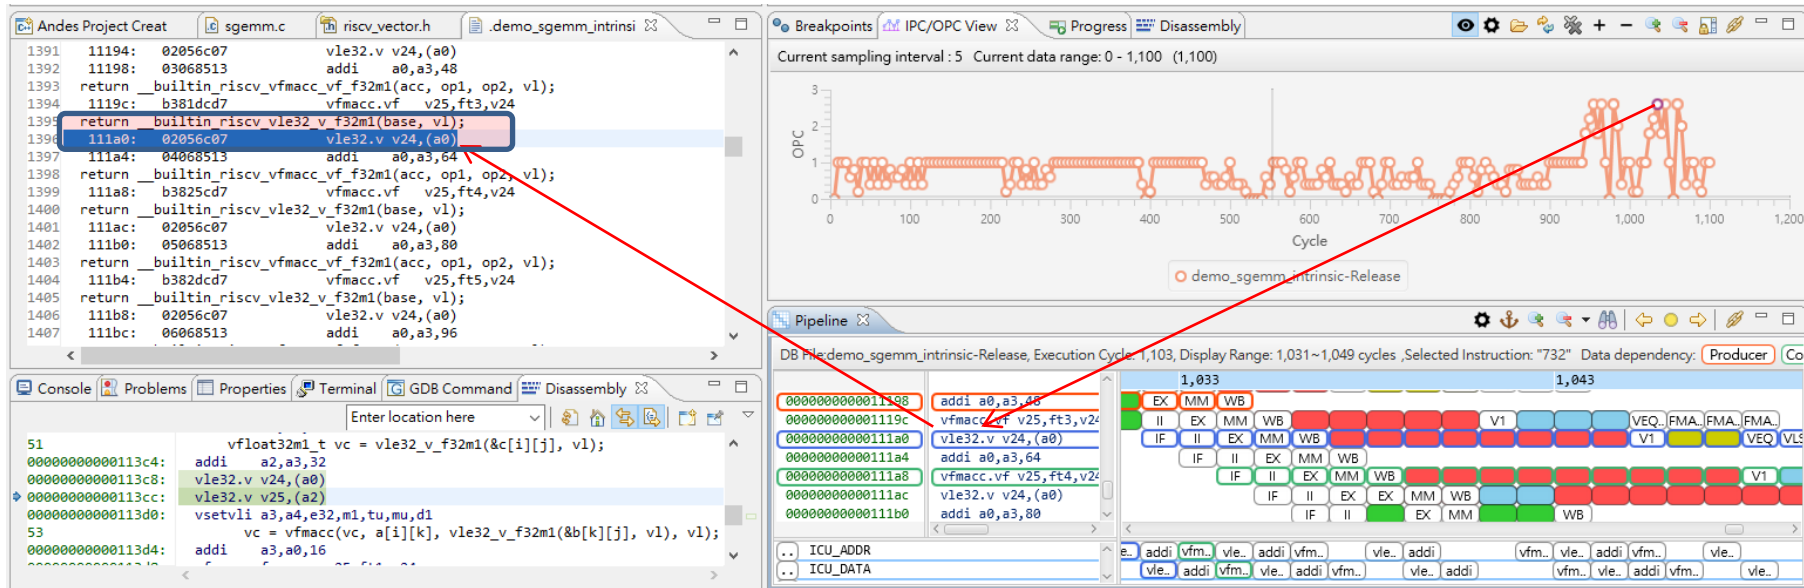

- A powerful plug-in for AndeSight™
 - Additional license is required
- Visualize performance and resource bottleneck
 - Pipeline view of instructions and functional units
 - Resource view corresponding to instruction usage
 - Stall bubbles with different colors for data dependency

Vector Intrinsic Support

- 3 vector demo with vector intrinsic
- 4 vector demo with in-line assembly

Agenda

- AndeSight™ Overview
- Major Features in AndeSight™
- Demo of the Advanced Debugging with AndeSight™
- Demo of the Advanced Analyzing with AndeSight™
- Summary

- A** Debus - demo.nn.relu.g7/src/nn.relu.g7.c - AndeSight STD v5.0.0

The graph shows a piecewise linear function $f(x)$ on the interval $[-3, 3]$. The function is zero for $x < 0$ and increases linearly from $(0, 0)$ to $(3, 3)$. The x-axis is labeled from -3 to 3, and the y-axis is labeled from 0 to 3. A red line represents the function, and a gray grid is shown in the background.

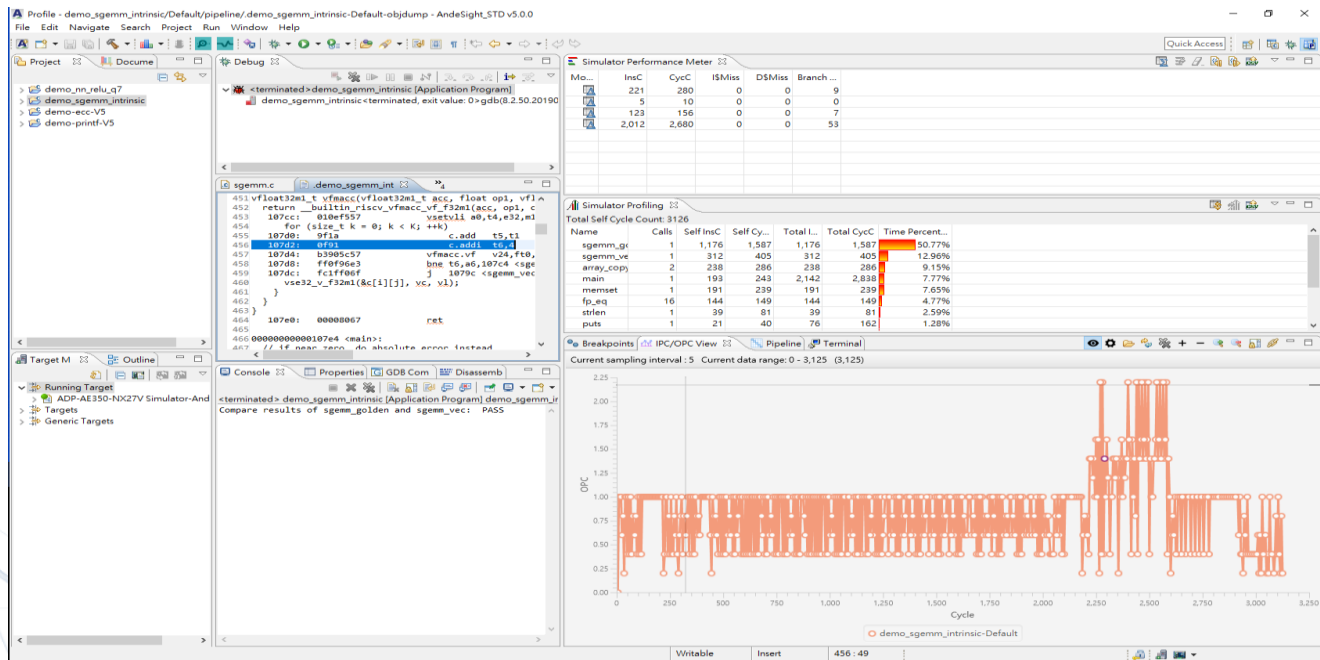

Agenda

- AndeSight™ Overview
- Major Features in AndeSight™
- Demo of the Advanced Debugging with AndeSight™
- Demo of the Advanced Analyzing with AndeSight™
- Summary

Demo of the Advanced Analyzing with AndeSight™

- Use sgemm (Single precision GEneral Matrix Multiply) as an example

Agenda

- AndeSight™ Overview
- Major Features in AndeSight™
- Demo of the advanced debugging with AndeSight™
- Demo of the advanced Analyzing with AndeSight™
- Summary

Summary

- AndeSight™ is user-friendly and easy-to-use IDE
- Powerful debugging tool
- Virtualized analysis to help you ultimately optimize your software
- Accelerate your RISC-V software development with the comprehensive development environment
- Periodic releases to support latest Andes RISC-V Cores

AndeSight™ IDE Free Download

- **AndeSight™ version for evaluation**
- **Three-month time limit**

Thank you!
